Liberty Protection Safeguards

Code of Practice Group

Wednesday 9th October
Welcome and Introductions
Minutes from the last meeting
Implementation of the Liberty Protection Safeguards

Objectives

Successfully implement the new system, by working jointly across the health and care sectors.

Effectively implement the new system, by working jointly across the health and care sectors.

In a way that:

- Ensures the right people are getting the right protections at the right time (removal of the backlog alongside implementing LPS and better access to safeguards);
- Improves quality and experience of care through an improved system;
- Provides better value for money; and
- Removes variation to provide a more equitable system.

So that:

The sectors are ready to deliver the new system;
- People receive better quality care with minimum restrictions;
- Their views and wishes are part of any LPS authorisations; and
- Their families and carers are fully involved, and they have access to safeguards which are well supported and swiftly delivered.

This will result in the empowerment and protection of vulnerable groups.

Workstreams

- Code of Practice
- Regulations
- Rollout and transition
- Workforce development
- Monitoring and oversight
- Data and systems
- 16/17 year olds
- Court of Protection

Planned Milestones

- Autumn 2019: Code of Practice engagement including with people with lived experience
- Winter 2019: LPS training strategy and transitional guidance published
- Winter/Spring 2020: Consultation and engagement on Code of Practice and regulations
- Spring 2020: Code of Practice and Regulations finalised
- Spring/Summer 2020: Training on the LPS scheme
- October 2020: LPS go-live
- October 2020-2021: Transition year

This will result in the empowerment and protection of vulnerable groups.
Code of Practice update

**Phase 1 Initial Drafting**
- Hilary drafting with input from over 100 stakeholders
- Engagement events with people with lived experience

<td>Finalising the Code</td>
<td>Gvt clearances</td>
<td><strong>Phase 3 Consultation</strong></td>
</tr>
</tbody>
</table>

**Phase 2 Iterations**
- Chapters going back onto DHX on a weekly cycle for further stakeholder comments

**Phase 3 Consultation**
- Clear Code through DHSC, MoJ, and DfE Ministers
- Home Affairs Committee clearance

We are here!
- DHSC reviewed first drafts of chapters internally
- Expert panel workshop
  - Align Code
  - Combine with MCA Code
  - Further engagement with people with lived experience
- Further engagement events during consultation
Care Home Managers

Self-Funder Scenarios:

1. The person comes through social services, local authority completes a care plan, and then it is discovered they can self fund

2. The person is an initial self funder but then capital runs out and they are then funded by the Local Authority

3. The person is a self funder for the whole of their time in social care, and has not had direct contact with the Local Authority
