Introduction and purpose of document

- This document outlines the process for assurance of BCF plans for 2017-18 and 2018-19 and provides guidance for Better Care Managers and Regional Leads as well as assurers. As in 2016/17, plans will be assured regionally. Assurance will be co-ordinated by the Better Care Managers (BCMs) but decisions will be jointly made between NHS and local government assurers.

- Regional assurance will be in two stages, after which plans deemed to meet the requirements set out in the Policy Framework and Planning Requirements will be put forward for approval.

- Final decisions on plan approval will be agreed by NHS England and the Integration Partnership Board (IPB) \(^1\). These decisions will be based on the moderated recommendation of the regional assurance panel.

- This pack sets out
  - The stages and time table for the assurance process,
  - Approach to ensuring consistent application of the National Conditions and requirements and:
    - A set of areas for assurance, underpinned by Key Lines of Enquiry.
  - The pack also describes the roles of different partners in the assurance process.

---

\(^1\)The IPB is a joint board that oversees government activity to deliver integrated health and social care. It is jointly chaired by the Department for Health and The Department for Communities and Local Government, with senior officials from HM Treasury, the Cabinet Office, the Local Government Association, ADASS and NHS England.
Better Care Fund 2017-19

Guide to assurance of plans

Overview
BCF 2017-19

Better Care Fund Plans should consist of

• A jointly agreed narrative plan including details of how they are addressing the national conditions; how their BCF plans will contribute to the local plan for integrating health and social care and an assessment of risks related to the plan and how they will be managed.

• A BCF planning template that includes:
  o Confirmed funding contributions from each partner organisation including arrangements in relation to funding within the BCF for specific purposes;
  o A scheme-level spending plan demonstrating how the fund will be spent;
  o Quarterly plan figures for the national metrics.

The Better Care Fund for 2017/18 and 2018/19 has four National Conditions:

▪ That a BCF Plan, including the minimum of the pooled fund specified in the Better Care Fund allocations, should be signed off by the HWB itself, and by the constituent local authorities and CCGs, and with involvement of local partners;

▪ A demonstration of how the area will maintain in real terms the level of spending on social care services from the CCG minimum contribution to the fund in 2017/18 and 2018/19, in line with inflation;

▪ That a specific proportion of the area’s allocation is invested in NHS commissioned out-of-hospital services, or retained pending release as part of a local risk sharing agreement;

▪ Implementation of the High Impact Change Model for Managing Transfers of Care
Planning overview

**Narrative Plan**
- Vision for health and social care integration
- Plan, with supporting evidence
- Assessment of, and approach to, risk
- National conditions’ narrative

**Planning Template**
- Confirmation of funding contributions
- Detail of schemes
- Confirmation of National Conditions 2 - 4
- National Metrics

**Supporting documents**
- Links where relevant to plan. Can include:
  - Joint Strategic Needs Assessment
  - Social Care Market Position Statements
  - Corporate risk registers
Better Care Fund 2017-19

Guide to assurance of plans

Planning requirements and key lines of enquiry
Planning requirements and Key lines of enquiry

This section sets out the content to be covered in Better Care Fund plans for 2017-19. This should be read in conjunction with the BCF Policy Framework for 17-19 published by the Department of Health and Department of Communities and Local Government, and the BCF Planning Requirements 2017-19 published by NHS England and the LGA.

The ‘Key Lines Of Enquiry’ (or KLOE) set out here are intended as a guide to local areas in developing their plans, as well as to the teams that will be carrying out the assurance of BCF plans for 2017-19. They are organised under the core planning requirements set out in the documents referenced above. They provide guidance on interpretation of the requirements for BCF plans and the key areas for assurers to verify. The KLOEs set out in this document will provide a single, transparent set of expectations for local areas in approaching BCF planning. The KLOEs have been reduced in number from 2016/17 and all plans are expected to meet these in order to be approved.

Feedback will be provided to local areas following their first full plan submission on any elements that require further action to meet national planning requirements. By the end of the assurance process all plans will need to demonstrate that they are meeting, or have plans in place to meet, the planning requirements in order to be approved and for authorisation to spend the CCG minimum element of the Better Care Fund.

Answering Key Lines of Enquiry

The approach to BCF planning for 2017-19 seeks to simplify the requirement for local areas, whilst still ensuring that the conditions of access to the fund are met and local plans for furthering the integration of health and social care services through the BCF are in place.

The planning requirements and supporting KLOEs can be demonstrated through the Narrative Plan, Planning Template and, where appropriate links to supporting documents, with a clear statement of the specific section or figures being referenced. Areas are encouraged to avoid structuring plans purely to answer these assurance questions. Instead, plans should present a narrative and supporting information that sets out how the joint plan for commissioning services under the Better Care Fund will produce more integrated working and improve services, along with a description of what will be commissioned and how the national conditions are met.
## Key lines of enquiry – national conditions

<table>
<thead>
<tr>
<th>Planning requirement area</th>
<th>BCF Planning Requirements (the confirmations for these requirements will be collected and analysed centrally)</th>
<th>KLOEs to support assurance of the planning requirements (these KLOEs underpin the assurance for the planning requirements but will not be collected/analysed centrally)</th>
<th>Templates / reference documents</th>
</tr>
</thead>
</table>
| National condition 1: jointly agreed plan (Policy Framework) | 1. Has the area produced a plan that all parties sign up to, that providers have been involved in, and is agreed by the health and well being board? 2. In all areas, is there a plan for DFG spending? And, in two tier areas, has the DFG funding been passed down by the county to the districts (in full, unless jointly agreed to do otherwise)? | 1. Are all parties (Local Authority and CCGs) and the HWB signed up to the plan? Is there evidence that local providers have been involved in the plan and that housing authorities have been involved in plans for use of the DFG funding? Does the Narrative Plan confirm that, in two-tier areas, the full amount of DFG Money has been passed to each of the Districts (as councils with housing responsibilities), or; where some DFG money has been retained by the Upper Tier authority, has agreement been reached with the relevant District Councils to this approach? | ✓ Planning Template  
✓ Narrative plan |
| National condition 2: Social Care Maintenance (Policy Framework) | 3. Does the planned spend on Social Care from the BCF CCG minimum allocation confirm an increase in line with inflation* from their 16/17 baseline for 17/18 and 18/19  
*1.79% for 2017/18 and a further 1.90% for 2018/19 | 4. Is there an increase in planned spend on Social Care from the CCG minimum for 17/18 and 18/19 equal to or greater than the amount confirmed in the planning template? 5. If the planned contributions to social care spend from the BCF exceed the minimum, is there confidence in the affordability of that contribution? 6. In setting the contribution to social care from the CCG(s), have the partners ensured that any change does not destabilise the local health and care system as a whole? 7. Is there confirmation that the contribution is to be spent on social care services that have some health benefit and support the overall aims of the plan? NB this can include the maintenance of social care services as well as investing in new provision | ✓ Planning Template  
✓ Narrative plan |

<th>Templates / reference documents</th>
</tr>
</thead>
</table>
| Local vision for health and social care | 6. A clear articulation of the local vision for integration of health and social care services? | 13. Does the narrative plan articulate the local vision for integrating health and social care services, including changes to patient and service user experience and outcomes, and a strategic approach to housing, social care and health, cross-referenced and aligned to other plans impacting on integration of health and social care such as STPs or devolution deals?  
14. Is there an articulation of the contribution to the commitment to integrate health and social care services by 2020 in line with the intent set out in the 2015 spending review and the BCF Policy Framework?  
15. Is there a description of how progress will continue to be made against the former national conditions 3, 4 and 5 in the 2016/17 BCF Policy Framework? | ✓ Narrative plan  
✓ Other local plans that contribute to integration (e.g. STP)  
✓ Joint strategic needs assessment |
| Plan of action to contribute to delivering the vision for social and health integration | 7. Does the BCF plan provide an evidence-based plan of action that delivers against the local needs identified and the vision for integrating health and social care? | 16. Is there a robust action plan that addresses the challenges of delivering the vision, including:  
17. Quantified understanding of the current issues that the BCF plan aims to resolve  
18. Evidence based assessment of the proposed impact on the local vision for integrating health and social care services through the planned schemes and joint working arrangements | ✓ Narrative plan |
| Approach to programme delivery and control | 8. Is there a clear, jointly agreed approach to manage the delivery of the programme, identify learning and insight and take timely corrective and preventive action when needed? | 19. A description of the specifics of the overarching governance and accountability structures and management oversight in place locally to support integrated care and the delivery of the BCF plan?  
20. A description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010  
21. Does the narrative plan have a clear approach for the management and control of the schemes including as a minimum:  
- Benefit realisation (how will outcomes be measured and attributed?)  
- Capturing and sharing learning regionally and nationally  
- An approach to identifying and addressing underperforming schemes | ✓ Narrative plan |
# Key Lines of Enquiry – Risk and Funding

<table>
<thead>
<tr>
<th>Planning requirement area</th>
<th>BCF Planning Requirements (the confirmations for these requirements will be collected and analysed centrally)</th>
<th>KLOEs to support assurance of the planning requirements (these KLOEs underpin the assurance for the planning requirements but will not be collected/analysed centrally)</th>
<th>Templates / reference documents</th>
</tr>
</thead>
</table>
| Management of risk (financial and delivery) | 9. Is there an agreed approach to programme level risk management, financial risk management and, including where relevant, risk sharing and contingency? | 22. Have plan delivery and financial risks, consistent with risks in partner organisations, been assessed in partnership with key stakeholders and captured in a risk log with a description of how these risks will be proportionally mitigated or managed operationally?  
23. If risk share arrangements have been considered and included within the BCF plan, is there a confirmation that they do not put any element of the minimum contribution to social care or iBCF grant at risk?  
24. Is there sufficient mitigation of any financial risks created by the plan if a risk share has not been included? | ✓ Narrative plan  
✓ Market Position Statement  
✓ Organisational risk logs |
| Funding contributions: | 10. Is there a confirmation that the components of the Better Care Fund pool that are earmarked for a purpose are being planned to be used for that purpose and this is appropriately agreed with the relevant stakeholders and in line with the National Conditions? | 25. For each of the funding contributions, does the BCF evidence:  
• That the minimum contributions set out in the requirements have been included?  
• How the funding will be used for the purposes as set out in the guidance?  
• That all relevant stakeholders support the allocation of funding?  
The funding contributions are the mandated local contributions for:  
• Implementation of Care Act duties  
• Funding dedicated to carer-specific support  
• Funding for reablement  
• Disabled Facilities Grant?  
• ‘improved Better Care Fund’ allocations  
26. Does the planning template confirm how the minimum contribution to Adult Social Care and the funding for NHS Commissioned Out of Hospital Services will be spent?  
27. Does the BCF plan set out what proportion of each funding stream is made available to social care and that the improved Better Care Fund has not been offset against the contribution from the CCG minimum?  
28. Is there agreement at the first submission stage on plans for use of iBCF money to provide stability and capacity in local social care markets? | ✓ Planning Template  
✓ Narrative plan |
<table>
<thead>
<tr>

</tr>
</thead>
</table>
| Metrics – Non Elective Admissions | 11. Has a metric been set for reducing Non Elective Admissions? | 29. Does the narrative plan include an explanation for how this metric has been reached, including an analysis of previous performance and a realistic assessment of the impact of BCF schemes on performance in 2017-19?  
30. Has a further reduction in Non Elective Admissions, additional to those in the CCG operating plan, been considered? | Planning Template |
| Metrics – Non Elective Admissions (additional) | 12. If a metric has been set for a further reduction in Non Elective Admissions, beyond the CCG operating plan target, has a financial contingency been considered? | 31. Has the metric taken into account performance to date and current trajectory and are schemes in place to support the target?  
See also National Condition 3. | Planning Template |
| Metrics Admissions to residential care homes | 13. Has a metric been set to reduce permanent admissions to residential care? | 32. Does the narrative plan include an explanation for how this metric will be reached, including an analysis of previous performance and a realistic assessment of the impact of BCF schemes on performance in 2017-19? | Planning Template |
| Metrics – Effectiveness of Reablement | 14. Has a metric been set for increasing the number of people still at home 91 days after discharge from hospital to rehabilitation or reablement? | 33. Does the narrative plan include an explanation for how this metric will be reached, including an analysis of previous performance and a realistic assessment of the impact of the reablement funding allocation for health and social care and other BCF schemes on performance in 2017-19? | Planning Template |
## Key lines of enquiry – Delayed Transfers of Care

</thead>
</table>
| Metrics Delayed Transfers of Care | 15. Has a metric been set for Delayed Transfers of Care? Does this metric take account of targets set at local NHS trust level as part of A&E delivery plans? | 34. Does the narrative set out the contribution that the BCF schemes will make to the metric including an analysis of previous performance and a realistic assessment of the impact of BCF initiatives in 2017/19 towards meeting the ambition set out in the local A&E improvement plan?  
35. Do the metrics take account of the ambition in the A&E delivery plans? (Where geographies don't easily enable this comparison through data, assurers should take into account other qualitative factors) | ✓ Planning Template  
✓ Narrative plan  
✓ Related schemes and models impacting DTOC beyond BCF  
✓ A&E improvement plans |
| Integrity and completeness of BCF planning documents | 16. Has all the information requested in the planning template been provided and are all the minimum sections required in the narrative plan elaborated? | 36. Have the Planning template and Narrative plans been locally validated for completeness and accuracy as per the planning requirements? (Better Care Support Team will carry out central data validation) | ✓ Planning Template  
✓ Narrative plan |
Better Care Fund 2017-19

Guide to assurance of plans

Assurance Process
Management of the assurance process: assurance panels

Regional assurance will be co-ordinated by BCF Regional Leads and Better Care Managers, working with Directors of Commissioning Operations (DCO) teams, in partnership with local government assurance teams. NHS regional staff (including finance staff) and BCMs will be responsible for ensuring that regional assurers have access to appropriate information and guidance to assure plans and that arrangements are in place for joint agreement by NHS and local government of assurance outcomes and feedback to local areas.

Regional leads for the Better Care Fund, with support from BCMs, will

• Agree the process for assuring and moderating plans in line with the guidance and timetable, using the key lines of enquiry and other nationally available materials.

• Agree how DCOs and NHS regional assurers will work with local government regional colleagues to assure plans, and put in place a timetable for delivery before XX. This should include an opportunity for NHS and local government assurers to discuss and agree plan status once plans have been scrutinised.

• Ensure that assurers are fully aware of their roles and equipped to provide adequate assurance of plans.

• Ensure that assurance panels are arranged in time to meet milestones in the planning requirements and that local Better Care Fund planning leads have arrangements in place for agreement and approval of plans locally.

• Agree a mechanism to resolve differences in plan ratings between different assurers.

Lead local government Chief Executives and Directors of Adult Social Care should put in place appropriate additional regional capacity by **XX 2017** to ensure local government regions are able to fully participate in the assurance process (utilising national BCST resources where required).
Management of the assurance process: moderation

- Arrangements should also be made by BCF regional leads and Better Care Managers for moderation of plan outcomes at NHS regional level at both the first and second stages of assurance.

- Moderation should be completed by the dates set out in the Planning Requirements and should ensure that a consistent approach to plan assessment has taken place across each NHSE region. Moderation should include input from:
  
  - Local government representatives: DASS and/or Chief Executive
  - NHS DCO
  - NHS regional finance representatives
  - Better Care Managers

- Moderation should ensure that the requirements of the policy framework and planning requirements have been applied consistently across the region. The meeting should agree a final set of plan ratings after each of the two rounds of assurance.

- Ratings should be recorded on the template provided and communicated to the national Better Care Support Team.
Management of the assurance process: cross regional calibration

- Once moderated plan outcomes are communicated to the Better Care Support team, a national level analysis of plan outcomes will be produced and provided to national partners and to NHS England regions.
- Following this, regions should review and benchmark their ratings against others. This process is the mechanism that the national Better Care Support team use to provide assurance to departments and NHS England that the conditions of the Fund have been applied consistently across England.
- The Better Care Support team will co-ordinate a teleconference between regional assurance leads to allow regions to moderate scores across England. This exercise will be used to ensure that plans are assured in a way that is consistent with other parts of the country. The calibration meeting will not examine individual HWB level assessments, but will examine overall approach and trends.
- This may result in some regions needing to re-visit judgements or comments for particular areas if it is apparent that different approaches have been taken regionally.
- As in 2016/17, decisions to put forward plans for approval by the IPB and NHS England, will be made by regions and the approach and representation at moderation and calibration will be for regions to make.
- If a first submission plan is rated ‘off track’ following calibration, support needs and escalation will be considered as a next step in consultation with the BCM for that area.

Submission of assured plan ratings and summary template

Submission of assured plan ratings and summary template

Submission of assured plan ratings and summary template

Submission of assured plan ratings and summary template
Roles and responsibilities

**NHS England Directors of Commissioning Operations (DCOs) and BCF Regional Leads**
- Work with LG regions and BCMs to agree and deliver the approach to assurance, supported by Better Care Managers
- Ensure that the BCF assurance template is completed for each Health and Wellbeing Board within their area

**Regional Local Government Leads (Directors and/or Chief Executives)**
- To oversee the LG input to BCF plan assurance and moderation, working with DCOs, BCMs and NHS England regions
- To ensure that additional operational capacity is provided to LG leads to deliver the approach to assurance and moderation from a local government perspective

**Better Care Managers (BCMs)**
- To provide additional capacity to DCOs and LG regional leads as agreed to support the overall approach to assurance and moderation across both health and social care

**NHS England regional leads and regional finance leads**
- To work with LG regional leads to provide a moderated view of BCF plans which aligns with wider moderation of NHS plans for 2017-18
- To coordinate and submit regional level returns providing an overview of plan assurance outcomes for each HWB in the region

**The Better Care Support Team**
- To develop a consistent framework for assurance and moderation agreed by partners
- To develop a HWB level BCF assurance template to aid consistency
- To support the cross regional calibration exercise to establish a national picture of plan assurance

Better Care Fund 2017-19

Guide to assurance of plans

Escalation overview
The purpose of escalation is to assist areas to reach agreement on a compliant plan. Senior representatives from all parties required to sign up to a plan will be asked to attend an Escalation Panel meeting to discuss concerns and identify a way forward.

In the eventuality that:
- signatories to a plan are not able to agree and submit a draft plan at the first or second submission stage, or:
- The Health and Wellbeing Board does not approve the final plan; or
- Regional assurers decide that a plan does not meet the planning requirements:

The Better Care Support Team, in collaboration with the relevant Better Care Manager, will commence an escalation procedure to oversee prompt agreement of a compliant plan.

A guide to escalation will be issued to all those asked to enter the escalation process.

**Escalation arrangements**

- Representatives from the area (HWB chair, Local authority chief executive (or DASS) and CCG accountable officer) will be required to present their escalation plan to the escalation panel (senior officials from DH, DCLG, NHSE and LGA)

**Outcomes**

- Agreed escalation plan proposal:
  - set timelines for delivery and monitoring by the BCM and, if appropriate, external support to develop plan
- No agreed proposal:
  - Direct development of an alternative proposal
  - Appoint an independent expert to support development of a plan
  - Appoint an independent contractor to develop a plan, using NHS powers of direction

**Follow up**

- BCST will monitor progress on agreed outcomes
- Revised plans will be assured and approved once submitted.
