How it could benefit your business

No cost to employers

Support for a project or extra pair of hands

How we work - A simple process

Tell us what skills you need

Agree a start date

Provide a workplace mentor

Sign your learners' time sheet on a weekly basis

Support us in completing on-placement reviews

Quote from the college:

“We are having some fantastic feedback on the placements; the learners seem to be really enjoying it and “Clive” in particular is very pleased with the learners progress so far.

All the managers I’ve met with have been great, they are really ‘pro-placement’ and really seem to see the value in offering our young people opportunities to gain experience within the council.”

Industry Placements for Full-Time Learners

If you're busy or you have a special project in mind, a Dudley College of Technology learner can help you get the job done.

For the academic year 2018/20 all host employers will be eligible to apply for up to £700 per learner (up to a maximum of 10 learners) from the Industry Placement Employer Support Fund.

If you would like to find out more about how your company can support our learners or information about hosting a young person on their Industry Placement please contact Emily North or Julie Tibbetts.

Call 01384 363082 Email industryplacements@dudleycol.ac.uk

Could you offer a Level 3 full time learner an Industry Placement?

Following on from the hugely successful first year of the Industry Placement pilot we are looking for employers keen to host a young person on their Industry Placement between September 2019 and July 2020 across a wide range of sectors.

"We've had Mechanical Engineering and Marketing graduate placements before so have the experience of what it should look like... I'm delighted with our placement learners work ethic and attitude and I know he will do well in the future"
Aercon Ltd.

2/3

of employers rate quality work experience as being significant or of critical value for young entrants to the labour market.
