

LOCAL GOVERNMENT WORKFORCE SUMMARY DATA

This summary of local government workforce data looks primarily at the directly employed workforce. The data comes from multiple sources, therefore dates will vary. Additional data on teachers, the fire service and the mainly-commissioned social care workforce are also summarised for convenience.

firefighters.

GENDER PAY GAP

2020/21

Government Equalities Office, Statutory Return
England

MEAN
5.1%

RANGE:
-25.3% (WOMEN PAID MORE) TO 21.6%
(WOMEN PAID LESS)

On average by number of authorities:

- Women were paid less than men in **81% (233)***
- The pay gap was zero in **less than 1% (1)***
- Women were paid more than men in **19% (55)***

Technical note: ACAS explains that mean averages are useful because they place the same value on every number they use, giving a good overall indication of the gender pay gap, but very large or small pay rates or bonuses can 'dominate' and distort the answer. For example, mean averages can be useful where most employees in an organisation receive a bonus but could be less useful in an organisation where the vast majority of bonus pay is received by a small number of board members.

MEDIAN
3.3%

RANGE:
-45.0% (WOMEN PAID MORE) TO 29.5%
(WOMEN PAID LESS)

On average by number of authorities:

- Women were paid less than men in **61% (176)***
- The pay gap was zero in **10% (29)***
- Women were paid more than men in **29% (84)***

Technical note: Median averages are useful to indicate what the 'typical' situation is i.e. in the middle of an organisation and are not distorted by very large or small pay rates or bonuses. However, this means that not all gender pay gap issues will be picked up. For example, a median average might show a better indication of the 'middle of the road' pay gap in a sports club with a mean average distorted by very highly paid players and board members, but it could also fail to pick up as effectively where the pay gap issues are most pronounced in the lowest paid or highest paid employees.

* **Technical note:** 42 authorities (~13% per cent) had not provided gender pay gap data for 2020/21. These percentages are based on the 289 authorities which had provided data.

PAY & REWARD SYSTEMS

2017/18

LGA Workforce Survey
England

AUTOMATIC ANNUAL INCREMENTS

(OR SIMPLE ANNUAL INCREMENTAL PROGRESSION) IS USED BY:

75%

OF COUNCILS FOR THE MAJORITY OF THEIR STAFF

LABOUR TURNOVER

2017/18

LGA Workforce Survey
England

- MEDIAN VACANCY RATE
- MEDIAN LABOUR TURNOVER RATE

Note: labour turnover is calculated in the workforce survey as the total number of leavers expressed as a percentage of the average headcount of employees over the financial year.

RECRUIT. & RETENTION

2017/18

LGA Workforce Survey
England

RECRUITMENT AND RETENTION DIFFICULTIES WERE EXPERIENCED BY:

78%

OF COUNCILS

IN SINGLE AND UPPER TIER COUNCILS THIS WAS HIGHER:

AGE PROFILE

2018

LGA Chief Execs/Chief Officers Survey
England

Chief officer is any officer whose contract relates to the Joint National Council handbook for Chief Officers. The officers falling into this group will vary locally although there are some statutory Chief Officer posts.

LGPS INCOME AND EXP.

2019/20

MHCLG Local Government Finance Release
England and Wales

Total LGPS income and expenditure

Like-for-like changes removing the effects of mergers and large transfers.

LGPS MEMBERS

2019/20

MHCLG Local Government Finance Release
England and Wales

Total LGPS membership

Note: Pension Scheme data is produced annually and importantly it covers all scheme membership without separating Local Government employees from the other public sector and other bodies. The 2020 report, however, does state that "74.0% of all the members of the LGPS are covered by local authorities and other connected bodies, even though local authorities and connected bodies represent only 18.6% of employers."
