

Place-based collaboration for Culture and Heritage

Trevor Mitchell

Who are we?

- We are a DCMS-funded public body.
- **Our purpose is to improve people's lives** by championing and protecting the historic environment.
- Our strategy is to identify three areas of focus for our work: **Thriving Places; Connected Communities and Active Participation.**

Historic Environment?

- Listed Buildings - Conservation Areas - Registered Parks and Gardens - Scheduled Monuments – World Heritage Sites - Registered Battlefields - Registered Shipwrecks.
- These designated **heritage assets are fantastic opportunities** to deliver economic, social and environmental benefits.
- **No, really.** They are assets, not problems.
- Our job is to help you to unlock their value.

Delivering for culture in your place

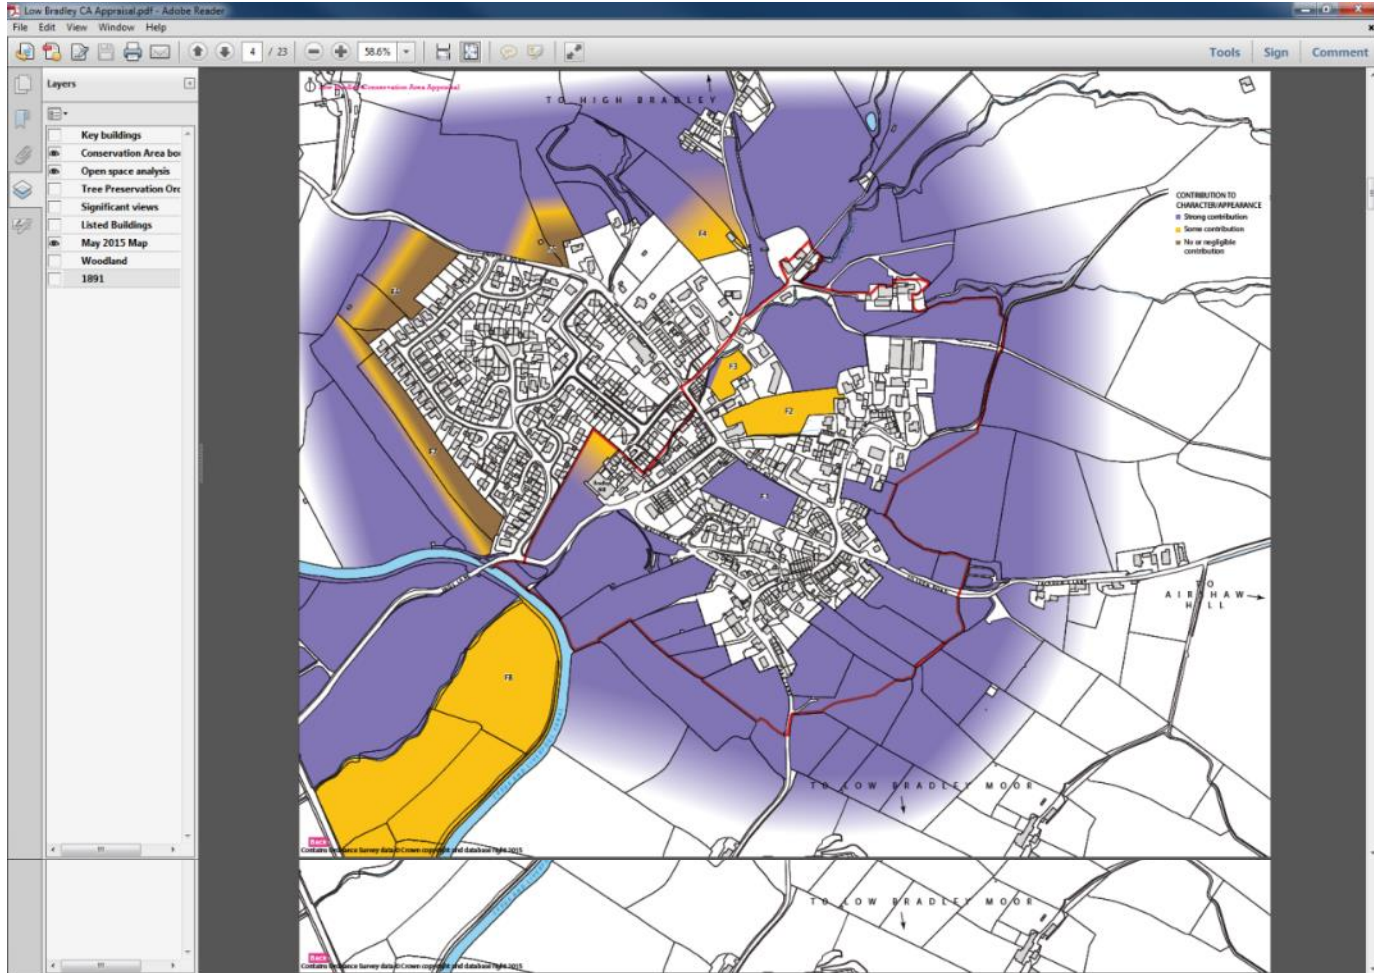

- Current funding climate short-term and capital-focused
 - sustainable regeneration and cultural development are slow-burn programmes
 - need blend of capital and revenue support
- Need for strategies and spatial masterplans
 - to capture funding
 - ensure support for long-term, sustainable regeneration

Support for strategies and masterplans

- Need for culture and heritage strategy
 - make it part of spatial masterplans
- Demonstrates context, alignment of bids
- Support on strategies and masterplans
 - free advice service
 - formal endorsement & show of support
- Funding offer now
 - for Conservation Area Management Plans for Conservation Areas at Risk
