

## **The provider perspective**

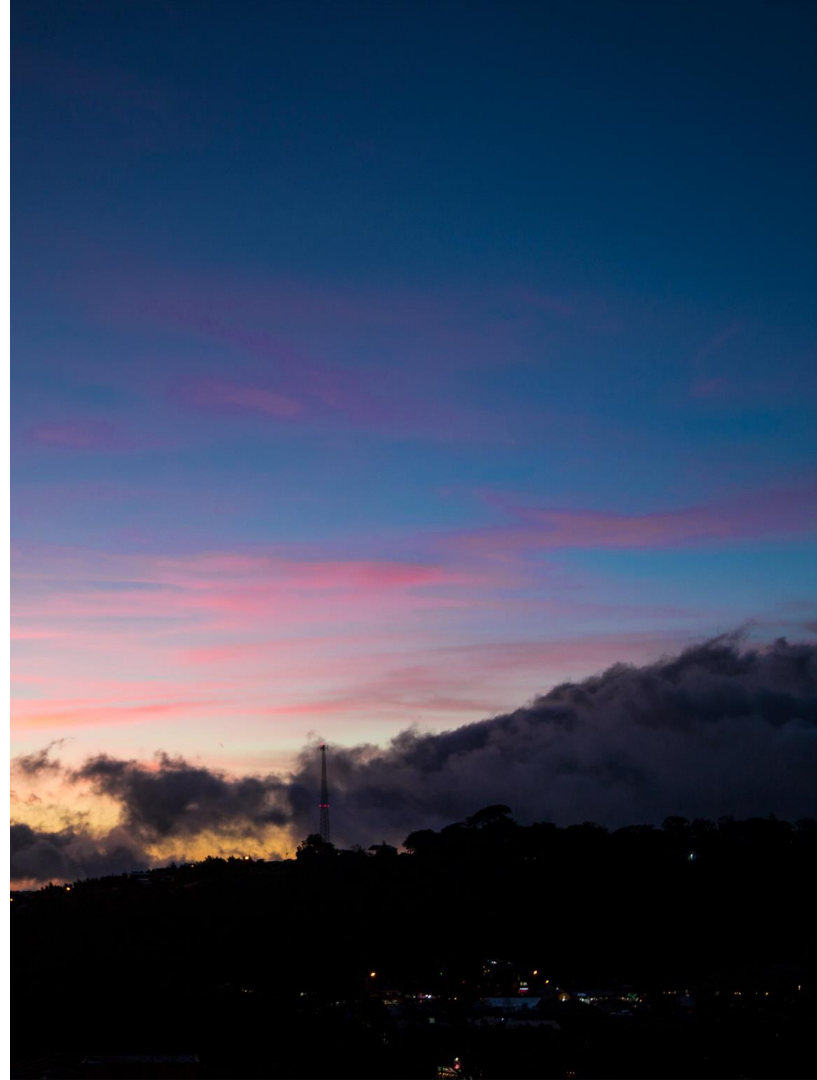

Preparing the Adult Social Care sector for emissions reduction

# #01

---

## EMISSIONS

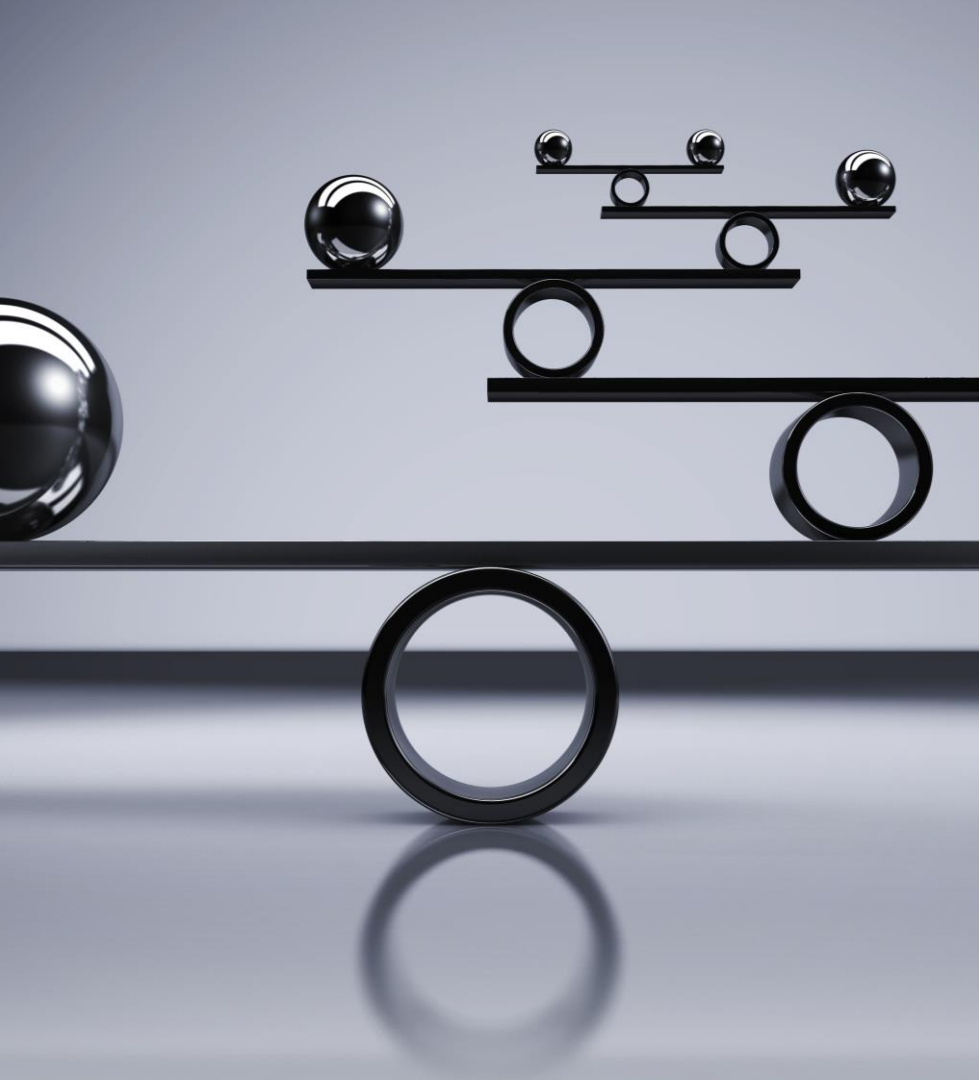

Why this matters to the sector?

---

**“UK has circa. 40,000 deaths  
resulting from exposure to  
outdoor air pollution”**

– this costs £20bn every year

# #2

---

## THE PLAN

Working to lower emissions

# THIS REQUIRES COLLABORATION

**01**

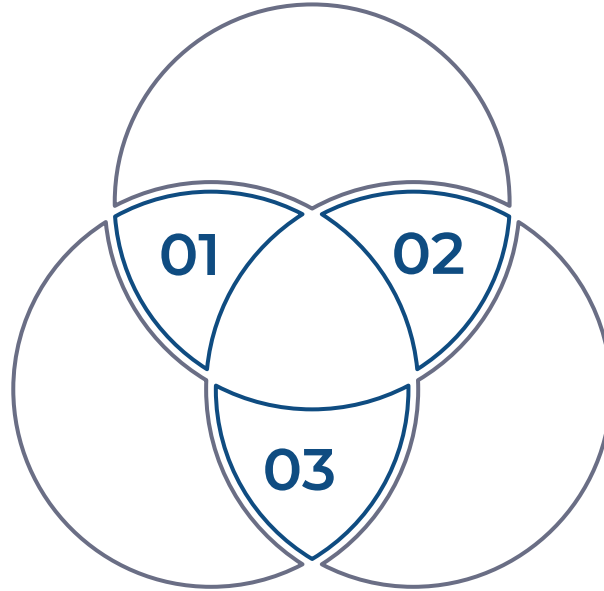

## EDUCATION

On the toolkit and  
support mechanisms  
councils

**02**

## REPORTING

How will this be  
administered and  
quantified?

**03**

## INCENTIVE

Commissioning  
framework and  
practical solutions

# #03

---

## THE DELIVERY

Moving the emissions dial...

# SUSTAINABLE SOCIAL CARE

## SHAPES

A sustainable and  
easy to impliment  
model

## DELIVERS

Integration of net carbon  
strategy and emission  
reduction

## STARTS

With reducing the  
barriers to adoption

## CHECKS

Reviews and  
reassures providers  
that they are on track

Our goal is to address this  
together.
