

The Standards for employers
of Social Workers in England

Action Plan Template
Revised June 2014

Guidance notes

The purpose of the Standards is to sustain high quality outcomes for service users and their families/ carers/communities. The Standards for Employers fall into three focal areas:

1. Enabling employers to provide a well led professional environment
2. Enabling social work professionals to maintain their professionalism
3. Enabling them to practice more effectively.

The action plan for the Standards for employers of social workers has been developed following an audit of the Standards.

Step 1

Please summarise the actions that will be taken, their priority and links to the service objectives. Ensure each action has an identified lead responsible for implementing that particular action with specific timescales.

Step 2

Please review the action plan at regular intervals via internal management structures and as part of internal quality assurance frameworks.

Step 3

Discuss the action plan regularly with teams, either in supervision or in team meetings, so that social workers can understand the role they have in upholding the Standards.
