recommendations

- Ensure sufficient information about workers' rights and transfer of sponsorship is provided to people intending to travel to the UK to work in the care sector using a health and social care visa.
- Introduce additional checks at visa issuing centres in countries of origin to ensure visa applicants have not paid recruitment fees to a third party.
- Establish a clear channel for reporting to the Home Office and Department of Health employers who charge workers for certificates of sponsorship.
- Implement stricter guidelines around repayment clauses and exit fees. Guidance around exit fees needing to be "proportionate" are too vague, and are easy for unscrupulous employers to abuse.
- Increase salaries of care sector staff as recommended by the Migration Advisory Committee.
- Require mandatory modern slavery training to be completed by all Care Quality Commission inspectors and local authority staff.
- Provide Government support to migrant workers whose sponsor's license has been revoked.
