PERSONALISED HEALTH AND CARE 2020
Using data and technology to transform outcomes for patients and citizens

Enabling work-stream: Localities and Communities
“Implementing the framework in localities and communities”
Purpose

• Ensure that the NIB work-streams meet the design principle: “work in collaboration with health and care organisations”
• Advocate for local organisations - provide practical input and advice into all NIB work-streams
• Ensure that local requirements and challenges are highlighted and communicated nationally
• Ensure national/regional organisations supporting localities through the development of appropriate ‘commoditised’ capabilities, services, standards and guidance
MEMBERS OF LOCALITIES AND COMMUNITIES

Chair – Dylan Roberts, Leeds CIO

Approx. 25 active members from local areas:

- Local CIO Council and Society of IT Managers (SOCITM);
- Association of Directors of Adult Social Services;
- Local Government Association and Local Authorities;
- Clinical Commissioning Group (CCGs) and Acute Providers;
- Third Sector Representation
Activity undertaken to date:

- Informed development of PHC 2020 last year;
- Localities member “linked” to each NIB work-stream;
- Interactive event with all NIB work-streams to provide a local perspective on emerging proposals;
- Input into deliverables e.g. local digital roadmaps and leadership and culture, developing information standards to enable integration;
- Advancing new ways of working: Integrated Care Pioneer Informatics Network, Vanguards;
KEY MESSAGES FROM LOCALITIES

• Build an economic and outcome-based case for sustained investment in technology - based on principles agreed with local areas;

• Enable digital maturity at a local level – recognising the considerable variation that exists and being clear about the role of national v local;

• Principles of co-design and co-production with local areas – more effective than top down implementation;

• Recognise that this is about full health and care systems including social care and voluntary and community sector;

• This is the start of an ongoing dialogue with local areas - a process of continuous engagement and collaboration;
HOW YOU CAN GET INVOLVED....

Get involved by:

• **Participating** in the localities and communities work-stream (contact mark.golledge@local.gov.uk);

• **Engaging** with a particular work stream or a specific activity to support principles of co-design and co-production;

• **Reviewing** the NIB work-stream roadmaps and providing feedback over the summer / autumn;

• **Sharing** what you are doing locally using technology and communicate the work of PHC 2020;
